

LOW RISK?

**When it comes to floods, “low risk”
doesn’t mean “no risk.”**

Did you know, even in your area, you stand a risk of suffering a flood? The truth is, 20% to 25% of flood insurance claims come from low risk areas. Which means everyone runs some risk of flood damage.

You’re probably not covered.

In fact, 90% of all natural disasters in this country involve floods. Yet, most homeowners insurance

policies don’t cover flood damage.

Give yourself peace of mind.

Fortunately, you can protect your home, apartment or business with flood insurance from the National

Flood Insurance Program. Act now, since it takes 30 days before your coverage begins. Because with floods, you can never say never.
